

NSBE Cincy Professionals

# BENJAMIN PHILIPPE

'23-'24 PRESIDENT

Hey I'm Benjamin M. Philippe, and I get to wear the hat of President for the NSBE Cincy Professionals chapter. I am Haitian, born and raised in France, and have a passion for STEM and diversity. I got my BS in Mechanical Engineering from The City College of New York, and my MEng in Material Science from the University of Cincinnati. I am currently a purchasing manager for brand building at Procter & Gamble. I love to play live music, hit the gym, and explore the city's food scene. Beyond that, I'm a Brother of Alpha Phi Alpha Fraternity, Inc. and I'm on a mission to connect people, and amplify representation for Black students and professionals in STEM and other fields while giving back to my community.
