

NSBE Cincy Professionals

# CATREECE JONES

**'23-'24 PUBLICATIONS CHAIR**

Hey everyone! My name is Catreece Jones and I am your new publications chair! I was born and raised in Buffalo, NY. However region IV has had my heart ever since I started at Cleveland State University where I received my Bachelors of Engineering in Mechanical Engineering. This is my third year in Cincinnati where I currently work for Kodak, as a research and development project engineer/manager. I love having "experiences", fitness, traveling, puzzles and all things that involve food! As your publications chair my goal is to represent our NSBE charter locally, regionally, and nationally while expanding our chapters exposure and resources so that we can better serve our members as well as our community.
